

OMNi Telix Vertical Grid Message List

OMNi allows a great deal of customization on how users will view and work with messages. The new message view list, is focused on users that would like the flexibility to select desired columns in the message list and their message on the right side of the screen.

You may activate this view by selecting “**View | Vertical Grid**” on the upper right side of your OMNi. Following right-click on the column headers (i.e. Subject) to add/remove the desired columns.

Select the preferred message list view according to you needs/wants:

- **Horizontal**, best for users that view a lot of columns.
Message list on the top, message preview on the bottom of the screen. Allows to arrange up to 19 message list columns.
- **Vertical**, best for users that focus more on the message.
Message list on the left side of screen and preview on the right. The vibrant colored avatar allows to spot senders at a glance.
- **Vertical Grid**, best for wide screens.
Flexible/customizable list, message preview pane on the right of the screen.
