

Streamline Your Daily Operations with the TELiX Shipbroking Suite

Tryton Shipbroking was founded in 2008 to provide Dry Cargo Chartering services. The team has more than 20 years active presence in the industry with strong track records in Dry Cargo Chartering and the vision to be a leading broking firm with worldwide recognition based on existing quality of work. Tryton is specialized in chartering Panamax and Kamsarmax vessels & cargoes and maintains strong/long relationship with Owners, Charterers & operators both in Greek & international markets.

Tryton Shipbroking cooperates with LgMAR Software using the TELiX Platform since 2008, since the day the company was founded. The team uses the email collaboration basic TELiX Platform and the TELiX Shipbroking module regarding the positions, the LgPList to manage information related to vessels and positions and the iTELiX application that contains rich features for all the mobile devices.

Since its founding in 2008, Tryton Shipbroking has forged a successful collaboration with LgMAR Software, utilizing the powerful TELiX Platform. The dedicated team relies on the email collaboration feature of the TELiX Platform and leverage the LgPList module to effectively handle vessel information and positions. To further enhance accessibility and convenience, their team utilizes the iTELiX application, which provides rich functionality tailored for all mobile devices. This comprehensive suite of tools enables Tryton to efficiently manage operations and deliver exceptional service to clients.

Jan Ioannou from Tryton Shipbroking acknowledges the demands of everyday shipping business tasks, which require swift management of a substantial volume of information and timely responses to associates' needs. Jan considers Telix collaboration system is an essential tool for Tryton since it has played a critical role for their daily operations. Last but not least, he expresses his deep satisfaction for the unwavering support provided by the LgMAR tech support team, emphasizing their invaluable partnership cultivated over the years.

LgMAR is a software company founded in 1989 by a team of dedicated experts in computer science and maritime business. LgMAR with the TELiX system introduced email to the maritime industry and nowadays is part of a greater TELiX Suite which includes Fleet Tracking and Performance Monitoring, Vessels' Position List, Orders List, Cargo/Port/Company Information and Vessels Sale & Purchase. LgMAR is recognized as a leading company in email software with several hundreds of installations and thousands of satisfied users in Greece, Europe, North and South America, Far East and Middle East.
