

## Windows Telix Shipbroking Suite The new generation of Sale and Purchase for ship brokers

The new generation of the **Sale and Purchase** software application for ship brokers goes beyond vessel information, message viewing and simple classification.

**AutoRead**® our state-of-the-art Maritime Message Recognition technology, is utilized in order to elevate **LgSNP** to a fully automated tool for shipbrokers.

**AutoRead**® silently scans all your incoming messages and translates them into useful and searchable information. Enquiries and their details are recognized and messages are commented and classified accordingly. A mouse click on a Purchase enquiry brings up a list of suitable recent Sale offers and vice versa.

Industry standard and customer specific reliable information for vessels is delivered via partnership with respected maritime database providers.

The **LgSNP** application contains rich functionality focused on the short and long term needs of the S&P brokers. It takes less than a minute to examine all Sale and Purchase enquiries out of thousand messages. Flexible and fast queries assist Shipbrokers to immediately advise their clients on how to take advantage of the best opportunities.
