

OMNi Memo Search and View

Searching for memo messages is now easier. Click on the **Address** button for the new enriched search with: Addressee • From • To • CC • Memo • exclude memo.

The screenshot shows the LgMAR search interface. The 'Address' button is highlighted, and a dropdown menu is open showing search criteria: Addressee, From, To/CC, Memo, and exclude. The 'Memo' dropdown is selected, showing a list of users and departments with checkboxes.

Select from the pick list one or more memo users, memo departments and groups.

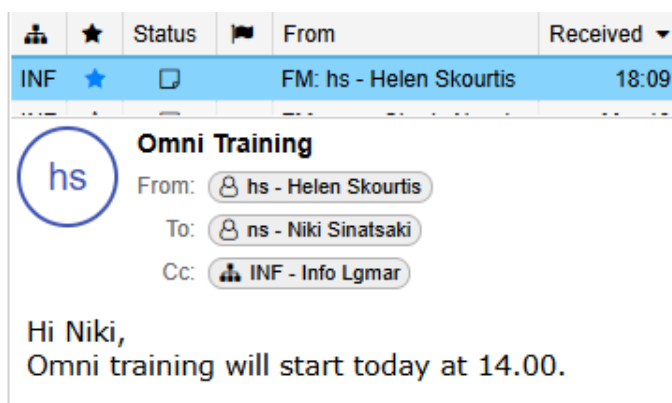

In case you search i.e. for all memo Groups or Departments and you need to exclude one or more, the exclude helper will be handy.

Memo messages look better with:

- Full name in the message list

More descriptive message header:

- Avatar for Memo senders
- Short and full username
- Descriptive icons for
- Memo users
- Memo departments
- Memo groups

LgMAR is a software company founded by a team of dedicated experts in computer science and maritime business, to develop highly specialized software in the area of telecommunications. LgMAR is recognized as a leading company in communications software with several hundreds of installations and thousands of satisfied users.
